

TOM THUMB COTONEASTER

Cotoneaster apiculatus 'Tom Thumb'

Height: 1-2' **Spread:** 3-5'

Location: Zone 4, sun

Shape: Compact, spreading

Foliage: Green, amber and burgundy in fall

Notes: Beautiful color, cold hardiness and smaller size characterize this neat, mounding shrub. Plant as single specimen or in groups as ground cover on banks, slopes and rock gardens. Charming pink flowers followed by bright red bead-like berries decorate plants through winter. Offers amber and burgundy fall foliage hues.
