

ALPINE CURRANT

Ribes alpinum

Height: 3-5' **Spread:** 5-6'

Location: Zone 2, sun to shade

Shape: Upright, spreading hedge

Foliage: Dense, glossy green

Notes: Dense glossy leaved shrub suitable for hedges in open or shady area. Small greenish flowers in April-May. Responsive to shearing.

GREEN MOUND ALPINE CURRANT

Ribes alpinum 'Green Mound'

Height: 3' **Spread:** 2-3'

Location: Zone 2, sun to shade

Shape: Rounded, slow growing, little pruning required

Foliage: Bright green, dense

Notes: Dense, compact form with good resistance to leaf disease. Small yellow flower clusters appear in spring followed by scarlet fruit which attracts birds. More of a mounded, spreading form compared to Alpine Currant. A nice slow-growing hedge plant that needs less pruning and maintenance than Alpine Currant.
