

# HONEYBUSH HONEYSUCKLE

*Lonicera periclymenum* 'Honeybush'

**Height:** 2'                      **Spread:** 4'

**Location:** Zone 4, sun, moist, well-drained soil

**Shape:** Groundcover

**Foliage:** Green, plum in fall

**Notes:** This introduction is a groundcover form of our familiar native climber. Sprays of old fashion honeysuckle flowers of red and cream adorn the plant from June-August. Plant it where you will be able to enjoy the wonderful fragrance.
