

DART'S GOLD NINEBARK

Physocarpus opulifolius 'Dart's Gold'

Height: 4-5' **Spread:** 4-5'

Location: Zone 2, sun to part shade, tolerates dry, alkaline soil

Shape: Upright, compact, rounded

Foliage: Golden, deeply lobed

Notes: A hardy, attractive plant for its color contrast. Very nice in the foundation or as a border planting. More refined, compact growing form of Golden Ninebark with excellent yellow foliage. White flowers and red fruit.

SUMMER WINE NINEBARK

Physocarpus opulifolius 'Summer Wine'

Height: 4-5' **Spread:** 4-5'

Location: Zone 4, sun

Shape: Upright, mounded

Foliage: Reddish purple all season

Notes: Improved variety with neat, compact branching and fine, deeply cut, dark crimson-red leaves. 'Summer Wine' combines the fine texture of Dwarf Ninebark with the dark foliage of Diablo. Requires little pruning. Pinkish-white flowers in mid-summer show nicely against the dark foliage.
