

ALPINE (DAPHNE) SPIREA

Spiraea japonica 'Alba'

Height: 12-18" **Spread:** 2-3'

Location: Zone 4, sun to part shade

Shape: Dense, compact, mounded

Foliage: Blue-green, fine textured

Notes: Small leaves on short wiry branches, each tipped with a cluster of light pink flowers. A refined tidy groundcover. Reblooms June through September. Excellent in mass plantings or as a single specimen.

ANTHONY WATERER SPIREA

Spiraea x bumalda 'Anthony Waterer'

Height: 2-4' **Spread:** 3-5'

Location: Zone 4, sun to part shade

Shape: Upright, mounded, dense

Foliage: Blue-green, red to bronze in fall

Notes: Flat-topped heads of rosy-pink flowers cover the top of this dwarf shrub, backed by bright green foliage. Attractive new growth is reddish purple. Use this small plant in the foreground of shrub borders.
